

Parent- to- Parent Leadership Institute: Family Navigator Training

Presented by: Advocates for Justice and Education, Inc.

A Family Navigator is a parent or caregiver of a child with special needs who experienced the challenges of being a caregiver, learned about various support and service delivery systems, and is willing to share their experiences and knowledge with other families. This two-day advanced training is open to all parents and caregivers of children with special needs to become a certified Family Navigator. Participants will gain the knowledge, tools and skills to improve their advocacy and leadership skills, and their ability to support other families by providing information, emotional support and referrals for families to obtain appropriate services.
